

Sowing Seeds of Faith

The subtitle of these District seminars is “Same Seed/New Fields.” There is only one “seed” that can be planted to grow faith and to secure eternal life—the Word of God. Christian education leaders and volunteers experience “new fields.” Family priorities have changed, church classroom programs are struggling, and every community is a mission field. Enclosed is information on four “Sowing Seeds of Faith” seminars which will be held around the District. Please share the information with Christian education committees, Sunday school teachers, vacation Bible school leaders, and other congregation partners.
